What is the difference between Vision Insurance and Medical Insurance?

Vision Insurance (Vision Plans)

It is important that you understand that your Vision Plan (VSP, Davis Vision, NVA, etc.) covers **ROUTINE** well-eye exams only, which includes the refraction to determine your eyeglass prescription. Your plan may also provide discounts or allowances toward eyeglass frames, lenses, or contact lenses.

As part of a routine well-care exam, our doctors examine your eyes for routine eye health and to determine the need for glasses or other refractive correction. If a medical eye condition is known, or discovered during this exam, a separate exam must then be made to address these issues and will be filed under your medical insurance. If your routine well-eye examination reveals a medical condition or disease which requires special testing or follow-up care, the testing and subsequent examinations will be billed to your medical insurance as these are **NOT COVERED** by your Vision Plan.

It is important to know that if you have a specific eye or vision complaint which is related to a new or pre-existing condition, such as cataract, glaucoma, diabetes, dry eyes, etc. or if you are here for a follow up appointment for a pre-existing condition as requested by a doctor, then your visit is **NOT COVERED** by your Vision Plan and will be billed to your medical insurance. Unfortunately, the doctor cannot always be sure whether a complaint such as decreased vision is related to a medical eye condition until after you are thoroughly examined.

Medical Insurance

The good news is that your Medical Insurance can be used if you have an eye-related medical problem, such as an eye injury, pink eye, double vision, headaches, cataract, dry eyes, glaucoma, or issues related to diabetes or high blood pressure (among many others). You **DO NOT** need a vision benefits rider on your medical insurance to be covered for a medical eye condition. In these cases, your Medical Insurance will be billed for the eye exam *even though a Vision Plan may also be in effect*. Your Medical insurance co-pays and deductibles prevail and must be paid at the time of your examination. Additionally, if we do file the exam with your medical insurance, you can still use your Vision Plan benefits toward the purchase of glasses or contact lenses, based on your plan and allowances.

At times it can seem like a complicated process, but these are the rules set by the insurance companies. We would be happy to answer any questions that you may have about your coverage.

Once your exam and materials have been filed with your insurance provider (at the conclusion of your visit) we CANNOT ALTER or CHANGE your examination, materials, diagnosis codes or bill another other insurance.

I have read the notice of Houser Newman Associates and agree to the terms set forth herein.
